

# Three Little Bees

In the garden there were bees,

I counted them and they were three.

They flew towards the trees.

They saw a beehive.

And gave each other a high five!

They flew inside and screamed with delight

'It's covered in honey!

That's so funny!

Let's put it in a jar as it's so nice and runny,

We'll label it Manuka and make a lot of money!
